Supporting Evidence: 3 age cohorts evaluated.

Secure Release Status

WARNING

0 children were securely released. 2 active records remain to be verified before final closure.
Supporting Evidence: Active release rate recorded at 0.0%

RECOMMENDED ACTIONS

Position two additional check-in terminals and support staff at main reception during the 13:00i½14:00 peak arrival window.

MEDIUM PRIORITY

Rationale: Streamline reception processing and prevent queuing during peak arrival waves.
Responsible Lead: Attendance Lead

Review all children who remain checked in and confirm their release status before the event record is closed.

HIGH PRIORITY

Rationale: This will ensure the attendance and release record accurately reflects each childi½s final status.
Responsible Lead: Attendance Lead

METHODOLOGY AND LIMITATIONS

- 1. Specific child identity and medical notes are protected and omitted from summary views.
- 2. Some timestamps reflect terminal synchronization times following temporary offline operation.
